Body Treatments

Our body treatments are designed to relax and revitalize your overall sense and well being. Our treatments let your own body improve itself and increase the metabolic process whereby toxins and fatigue may be greatly diminished. While comfortable and restful, body treatments also increase vital energy and enhance muscle composition and skin softness.

Our body treatments include a rejuvenating cool shower to enhance your overall sense of health and well being. This in turn, calms your system and prepares you for an enriching experience. We encourage you to combine one of our revitalizing body treatments with a facial of your choice for heightened effects.

Body Vibrating Instrument 45 min/\$80

The latest researched technique that our salon has to offer. This method vibrates the muscles while massaging to stimulate the blood and lymph circulation in your body. The vibration of the body will then accelerate metabolism of fat, at the same time excreting sebaceous and sweat glands.

Hot Natural Stone Therapy

For physical and spiritual balancing, this treatment is a modality. The body is massaged with smooth, hot stones using various massage techniques, thus relaxing the body at its deepest level. An energy exchange between the stones and the tension in your body occurs as heated stones are used to bring relief to tense and sore muscles. As these hot stones glide over the muscles, tension diminishes and stress gently melts away. Penetrating heat radiates deep into muscles providing relaxation while addressing mental, physical and spiritual well-being. Your muscles will happily give up their stored tension with this soothing new technique.

Shiatsu/Acupressure

Special trigger points are targeted to alleviate stress and imbalance. According to Oriental therapy, this massage helps stimulate the functioning of internal organs and balances the body's energy. During Acupressure Massage, the therapist combines thumb pressure along meridian lines with various leverage and kneading techniques for a very firm massage.
